Subject: START

Summary of Conclusions

The SIG convened under the co-chairmanship of Under-secretaries Eagleburger and Ikle to review a written presentation of agency viewpoints on three subjects: units of account, interim restraints, and other START issues. The SIG approved forwarding the paper to the White House for review in meetings to be held April 30 and May 3. On units of account, the representative of the Joint Chiefs of Staff noted that the opinions attributed in the paper to Defense were those of OSD, and offered minor amendments to be submitted later at IG level. On the matter of interim restraints, JCS suggested further analysis would be needed following an NSC decision on units of account. It was generally agreed by the SIG that parallel negotiations on interim restraints could vitiate the main thrust of the START Talks, namely to seek reductions, and should be avoided. ACDA expressed reservations on any change to the current regime of interim restraints. With respect to other START issues, the SIG agreed to postpone consideration of them until the units of account question was settled.

The NSC representative instructed the SIG to present its material in a way that made clear the relationship of agency views to the criteria set forth by the President. NSC offered to draft a one-page positions paper to that end.

Following the SIG, the JCS representatives briefed a restricted session on the subject of warhead levels.
